

JHONEL ALAM

CYBER SECURITY SPECIALIST

Phone: 09708335114 | Email: jhonel.alam@gmail.com | Portfolio: ciph3r-me.vercel.app

PROFESSIONAL SUMMARY

Dedicated IT Security Specialist and Cybersecurity Professional with a solid foundation in network security, system administration, and technical troubleshooting. Skilled in identifying and mitigating security vulnerabilities, managing enterprise IT infrastructure, and enforcing security compliance baselines. Proven ability to implement security best practices (CIS Benchmarks, Minimum Baseline Security Standards), conduct risk assessments, and maintain secure, resilient operations across financial and enterprise environments.

CORE TECHNICAL SKILLS

- Threat Analysis & Incident Response
- Vulnerability Management & Mitigation
- Security Monitoring (SIEM, EDR, Cloudflare)
- Security Hardening & Compliance (CIS, MBSS)
- Identity & Access Management (AD, AD FS, SAML, SSO)
- Network Security & Infrastructure Hardening

PROFESSIONAL EXPERIENCE

Jr. IT Security Engineer — Philippine Trust Company (Philtrust Bank) August 2025 – August 2026 | Manila, Philippines

- Architected and built a bank-wide Active Directory infrastructure from scratch, establishing baseline security controls aligned with CIS Benchmarks, Minimum Baseline Security Standards (MBSS), and banking regulatory frameworks.
- Enforced system hardening policies across domain controllers, Windows servers, endpoints, and critical financial applications to minimize attack surfaces.
- Integrated Active Directory across enterprise security tools: CrowdStrike, Fortinet, Palo Alto, Cisco ISE, ManageEngine Endpoint Central, and Cloudflare.
- Deployed AD FS, SAML, and Single Sign-On (SSO) to centralize identity management and improve user access control security.
- Managed endpoint security and threat mitigation using CrowdStrike Falcon EDR, handling threat hunting, policy whitelisting/blocking, and rapid host isolation.
- Triaged security alerts and correlated logs within Fortinet FortiSIEM and NG SIEM Falcon to streamline incident handling and forensic analysis.
- Configured and maintained Fortinet and Palo Alto Firewalls for traffic control, policy enforcement, and continuous perimeter monitoring.
- Administered ManageEngine Endpoint Central to enforce DLP policies, application control, automated patch management, and vulnerability remediations.
- Configured edge protections on Cloudflare, including rate limiting rules, DDoS mitigation, DNS security, and Web Application Firewall (WAF) policies.
- Developed internal automation scripts and utilities to optimize security monitoring workflows and routine network operations.

Data Analyst & IT Support Intern — DHL Global Forwarding (Phils.) February 2025 – May 2025 | Pasay, Philippines

- Provisioned IT accounts and hardware assets in ServiceNow to streamline secure employee onboarding.
- Resolved critical IT tickets covering network connectivity, access control, system errors, and software troubleshooting.
- Automated HR and operational reporting workflows using Excel and VBA, reducing manual processing overhead.
- Managed IT inventory logs and generated structured support documentation for internal audit compliance.

Technical Support Associate — Tech Mahindra September 2022 – October 2022 | Quezon City, Philippines

- Delivered technical support for hardware, OS, and network issues following strict SLA guidelines and security protocols.
- Escalated complex technical incidents to tier-2 teams with detailed diagnostic reports.

PROFESSIONAL CERTIFICATIONS

- Google Cybersecurity Professional Certificate — Coursera **Issued Aug 2026** (ID: LOJWHMU5PI3X)
- Google Network Security Certificate — Coursera **Issued Aug 2026**
- Google IT Support Professional Certificate — Coursera **Issued Aug 2026**
- AWS Certified SysOps Administrator – Associate — Amazon Web Services (Nov 2023)
- Cryptography & Security: Protect Data from Cyber Threats (Dec 2025)
- Cryptography & Cybersecurity (Jan 2025)
- SAP Security: Deep Dive into Roles and Authorization (Jan 2025)
- Master Course in Google Cloud Digital Leader

- Cybersecurity — CISCO
- Critical Infrastructure Protection — OPSWAT
- Data Protection & Security (Encryption, Access Control, GDPR, Risk Management)
- National Certificate II – Computer System Servicing (TESDA)

TECHNICAL ACTIVITIES

- Ethical Hacking & Labs: Completed advanced cyber labs and challenge machines on Hack The Box to refine penetration testing and defense skills.
- Capture The Flag (CTF): Participated in competitive CTF events focusing on cryptography, forensics, reverse engineering, and defensive tactics.
- OSINT Reconnaissance: Performed intelligence-gathering exercises utilizing open-source frameworks for operational threat analysis.

EDUCATION

Bachelor of Science in Computer Science

Sept 2021

Technological University of the Philippines

Thesis: "Code Assessment Using Rubric-Based Fuzzy Logic" — Built an automated grading engine leveraging fuzzy logic algorithms.
